SUMMARY

Front-end Web Developer with hands-on experience in HTML, CSS, Tailwind CSS, Material UI, JavaScript, React Js and Next Js. Passionate about building responsive user interfaces and solving real-world problems with clean, efficient code. Strong understanding of modern web development practices and UI/UX principles.

WORK EXPERIENCE

React Js (Next Js) Intern | Hisky Tech | On Site | January 2025 – June 2025

- Contributed to a dynamic team, working on real-world projects to enhance front-end development expertise.
- Designed engaging user interfaces and optimized web performance to ensure seamless user experiences.
- Collaborated with experienced professionals, gaining insights into modern technologies and best practices.
- Specialized in HTML, CSS, Tailwind CSS, JavaScript, and React Js, Next Js building fast and responsive web applications.
- Prioritized client needs, translating requirements into aesthetically pleasing and functional designs.
- Stayed updated on industry trends, integrating innovative solutions into projects.
- Consistently delivered high-quality, client-focused solutions that drove business success.

Frontend Developer Intern | Enigmatix | On Site | March 2024 - August 2024

- Developed and maintained responsive user interfaces using HTML, CSS, Tailwind CSS, JavaScript and React Js.
- Gained hands-on experience in debugging, version control (Git), and deploying frontend projects.
- Fostered a collaborative work environment by encouraging teamwork and open communication.
- Played a key role in improving team productivity while developing user-friendly and responsive web applications.
- Gained hands-on experience by working on diverse projects, creating intuitive interfaces tailored to user needs.
- Shared knowledge and expertise to support the professional growth and skill development of the team.
- Optimized frontend performance and improved loading speed across various devices.

PROJECTS

Blood Donation Management System (Final Year Project)

- Designed and developed a web-based Blood Donation Management System using React.js to connect donors with recipients.
- Implemented user registration, login, and profile management features for donors, recipients, and admins.
- Built interactive forms and dashboards to allow users to request and donate blood efficiently.
- Integrated real-time updates and form validation to enhance user experience and reliability.
- Applied responsive design principles using CSS to ensure mobile and desktop compatibility.

- Focused on clean code structure and component-based architecture for easy maintenance and scalability.

Food Delivery Website in React Js

- Developed a responsive food delivery web application named **Flavoro** using React.js and Redux Toolkit for state management.
- Implemented features like product listing, cart functionality, order placement, and user authentication.
- Managed complex application state efficiently with Redux Toolkit to ensure smooth use interactions.
- Designed reusable React components for menu items, filters, modals, and forms to maintain clean architecture.
- Integrated UI enhancements for an engaging user experience using Tailwind CSS.
- Focused on mobile-friendly design and seamless navigation to improve usability.

Doctor Appointment Website in React Js

- Built a responsive Doctor Appointment Booking website using React.js and Tailwind CSS.
- Developed user interfaces for booking appointments, viewing doctor profiles, and managing schedules.
- Implemented dynamic routing and state management to navigate between pages and handle user inputs smoothly.
- Used Tailwind CSS to create a modern, clean, and responsive UI across different screen sizes.
- Focused on user-friendly experience with clear forms, confirmation messages, and accessibility features.

Personal Portfolio Website in Next Js

- Designed and developed a fully responsive personal portfolio website using **Next.js** for server-side rendering and improved performance.
- Showcased projects, skills, and contact information with a clean and modern UI built using Tailwind CSS.
- Implemented smooth scroll, animations, and section-based navigation for better user experience.
- Used next/image and optimized assets for faster load times and better SEO.
- Deployed the portfolio online to demonstrate technical skills and professional experience.

EDUCATION

Bachelor of Science in Computer Science | The Islamia University of Bahawalpur | 2020-2024

SKILLS

HTML	React Js	Github
CSS	Next Js	Figma
JavaScript	Tailwind CSS	Mongo DB
BootStrap	Material UI	Redux Toolkit
